

**General Guidelines:**

- Galt's indoor range has a muzzle direction rule for action shooting. The muzzle direction must remain inside the bullet trap area at all times unless due to recoil. (aka, no pointing at walls while going around cover, and no pointing at the sky for reloading)
- Unlimited Vickars – Meaning no shot limitations. Any reactive targets must be engaged with at least one shot unless otherwise mentioned in the CoF.
- ODPL Scoring means that Tactical Priority is always in effect for visible targets. Biggest threat, closest to furthest. Every single hit on a No Shoot target results in a penalty.
- Blacked out areas on threat/hostile targets are considered hard cover, except for threat designations (aka gun images) which are soft cover. Secondly, non-hostiles are indicated by one or more hand images without threat designations.

**Stage 1: (4 hostiles, 16 rounds)**

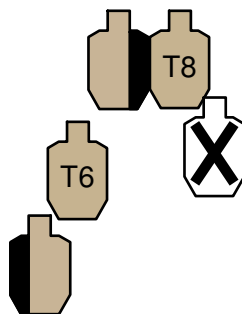

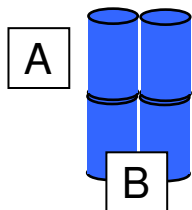

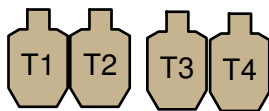

CoF Description: Competitor begins at the starting point (A) with concealment, facing up range. On the buzzer, the competitor will turn and engage two targets from one side of high cover then engage the remaining two targets from the opposite side. Repeat! When finished the competitor will stand, unload and show clear. (Target T2 & T3 have threat images)

High cover is 10-11 yards from targets

**Stage 2: (5 hostiles, 1 no-shoot, 16 rounds)**

CoF Description: Competitor begins at the starting point (A) with concealment, facing Left. On the buzzer, the competitor will turn and engage the targets directly in front of them. Retreat to position (B) and engage targets from right side of high cover. Retreat to position (C) and engage remaining targets from left side of high cover! When finished the competitor will stand, unload and show clear. (Target T2 & T3 have threat images)

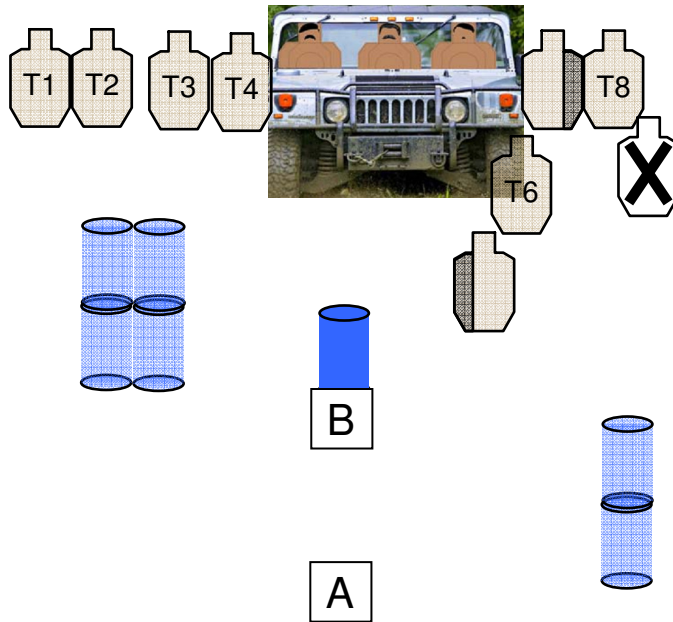

'A' is 7yds from targets  
'B' is 11-12 yards from targets  
'C' is 15-16 yards from targets

### Stage 3: (3 hostiles, 2 reactive, 8 rounds)

CoF Description: Competitor begins at the starting point (A) with concealment, facing downrange. On the buzzer, the competitor **must** neutralize the reactive target targets on the "Vehicle" directly in front of them. Advance to position (B) and engage targets inside the "Vehicle". The "Vehicle" is considered to be hard cover. When finished the competitor will stand, unload and show clear.

'A' is 15 yds from target  
'B' is 10-11 yards from targets

May need to takedown existing targets to have clear LoS.

### Scoring!
