ODPL Match

Galt is hosting a handgun only ODPL match on October 1st!
Hopefully the sun is out, but regardless the match will go on!

Galt's ODPL crew are going to test some skills and techniques that they are pretty sure you have not practiced... So don't think that the CoF designer will go easy on you. We'll even give you a little hint of the stages for this CoF. Props, modified urban prone, and a sadistic sense of humour. Just be ready for a little everything.

Scenario Breakdown:

- 5 Stages
- 65 rounds will squeak you through (If you don't miss or overshoot, and you will miss... Oh yes... You will miss...)
- Standard Vickers Count unless noted differently in the CoF
- ODPL Scoring
- Requires: CDP Competitor, IPSC Black Badge, IDPA Orientation Certification, or Match Director's validation

- e. Prone Position. Lie flat on the ground, facing the target (see Figure 2-12). Extend arms in front with the firing arm locked. The arms may have to be slightly unlocked for firing at high targets. Rest the butt of the weapon on the ground for single, well-aimed shots. Wrap the nonfiring hand (fingers) around the fingers of the firing hand. Face forward. Keep the head down between arms as much as possible and behind the weapon.

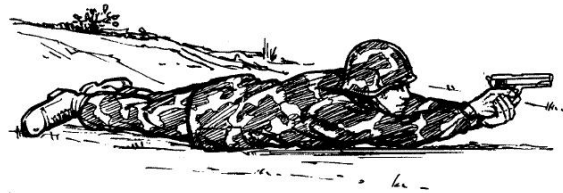

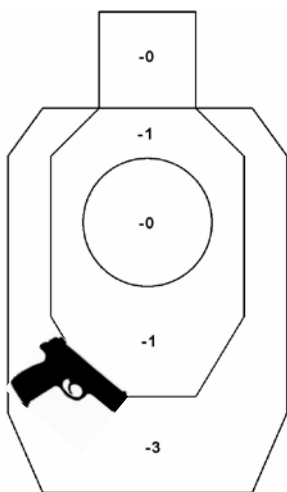

Figure 2-12. Prone position.
